I can't figure out how to set temp, and I don't have manuals like I'm borrowing from a friend. I've had a terrible last few days, appreciating any help. Page 2 posted byu / [deleted]3 years ago 8 comments Brand: Kanger Product Name: SUBVOD Mega kit SKU: KANGER003700 Type: Box Mod Kit / Starter Kit / All-in-one Kit Kanger SUBVOD Mega TC Starter Kit, A Simple Button Design Kit comes with a 2300mah Kanger Subvod Mega TC battery and a 4ml capacity Kanger Wholesale Mini, based on the popular EVOD Battery design, so it looks and works like the original EVOD - just charge the battery, plug in the clearomizer and Away. Unlike EVOD, however, the SUBVOD TC Mega starter kit allows you to use sub-ohm tanks and take advantage of the steam and flavor of sub-ohm coils. SUBVOD Mega TC Battery support Short Circuit Protection, Low Resistance Protection, Overcharge Protection, Low Battery Warning Indicator. And Toptank Mini Features Top-fill and bottom-fill design, Wide grooved double adjustable airflow, compatible with 510 drop tips, compatible with Kanger SSOCC and Ni200 coils, also has very few imitations of subvod Mega kit so on top of temperature control capabilities! Colors: White, Black, Silver, Red Material: aluminum alloy and stainless steel Diameter: 22mm Length: 99mm Battery Capacity: 2300mAh Output Watts: 35W - 40W Miniumum Resistance: 0.1ohm Yarn Type: 510 Thread Temperature control range: 220°240°C (430°F to 460°F) Colors: White, White White Black, Silver, Red Material: high grade 304 stainless steel and Pyrex glass Diameter: 22mm Height: 45mm Tank Capacity: 4.0ml Design: Top filler/Bottom-fill 1. Built-in large capacity 2300mAh battery 2. 4ml E-juice filled with top, eliminating the need for 3 indoor tops several times a day. Atomizer features an intuitive coil replacement system that allows you to use a wide range of heads, you can replace the atomizer with another pre-built sub-ohm atomizer with resistors as low as 0.1 ohm. 4. Compatible with Kanger SSOCC and Ni200 coils 5. 510 drop ends compatible with 6. Double adjustable airflow with wide groove 7. Features Selectable TC or Power output mode, just remove the lid, drop the water into the filling slot and replace the lid. 8. Support Short circuit protection, Low resistance protection, Overcharge protection, 10-second cutting, Low battery warning indicator. 9. Support 510 thread 10. SUBVOD Mega has transition function, so you can continue vaping as charge. Charging: You can charge with Micro USB, when you connect the charging port under the battery to a power source, the indicator light turns red when charging SUBVOD Mega and turns green when the battery returns to full power. Note: SUBVOD mega tc has the transition function, so you can continue vaping as a fee. ☑ 1 x Subvod Mega TC ☑ 1 x Wholesale Mini ☑ 1 x SSOCC 0.15ohm coil head ☑ 1 x SSOCC 0.5ohm coil head ☑ 1 x USB Cable ☑ 1 x Manual ♥ 6 months Warranty Kanger SUBVOD Mega Starter Kit KangerTECH Subvod Kit (1300 mAh ) The kit includes nano tank - Top filling with 1.9ml sliding airflow Subvod battery - 130m 0.4 ohm SSOCC with coil resistance above 0.5 ohm coil - (Stainless Steel Organic Cotton Coil) Replacement Pyrex Glass USB cable User Guide Standard 3.7v battery Tips ☐ Never leave your battery unused during charging and use only compatible USB/Mains chargers. ☐ Each time you replace a coil and re-fill the tank, leave it for 5 minutes to ensure that the liquid is fully inside the coil. Failure to do so will burn and damage the battery. ☐ Always make sure there is liquid in your tank. How to turn on the battery / KAPA or press the power button 5 times in 2 seconds. To press the ignition button, draw and release after finishing. If you press the button for more than 10 seconds, the battery turns off. Filling the tank The tank is your choice to dismantle the top or turn the tank upside down and remove it from the base of the tank. Don't fill up too much. E-liquid allows you to soak into the coil for a few minutes after filling to avoid dry blows. To prevent liquid leakage from the top, it is recommended to keep the air hole closed during filling. When charging the battery, the bottom of the battery displays one of the two lights. The red light shows that the battery is not fully charged and would normally take about 2-3 hours for full charge. When the battery is fully charged, the LED light turns green. Do not leave the battery unsupervised or leave it to charge overnight. This battery may be idle when charged. NOT SUITABLE FOR USE OF THIS PRODUCT: ☐ The product is intended for use by persons aged 18 and over, not intended for use by children, pregnant women or breastfeeding. ☐ People with heart disease, high blood pressure, diabetes, nicotine allergies or taking medications for depression or asthma should not use this product. If you have any questions call us at the sandbach store on 01270 761 552 and we will be happy to help you fill either the top or bottom. This means that you can fill e-liquid by either \*It is recommended to increase water intake while vaping if you fill the tank Vape Daddy Philippines - Cubao, Facebookissa Quezon City.
